REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art does not disclose having gaps with a maximum deviation of 0.1 mm. Although one would expect such deviations at a particular orientation, such would not be the maximum deviations for the arrangement (e.g. a gap may deviate from the average from 0 to 1.0 mm depending upon the angle and for some angle the deviation would be 0.1 mm). Other prior art burners, such as Andrejco, would probably have a maximum dimensional deviation (if any) of less than 0.1 mm.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: The TITLE now reads: --Co-axial burner alignment and arrangement method and device for producing a quartz glass body--.
